Sweet Pea Machine Embroidery Designs Design Files Disclaimer-

Please note to customers who use embroidery software to open our files. In doing so, you may run the risk of the design not stitching as intended by our digitiser's instructions.

We highly recommend that any design file purchased from us should be downloaded as per our "how to download our designs" instructions on our website and placed directly onto a USB/memory card and then placed directly onto the embroidery machine.

We will not be obligated to provide compensation to customers who have put our files through their software and the resulting stitch out was not as intended.

INSTRUCTIONS

USING YOUR SEWING MACHINE:

PREPARE THE BACKING FIRST FOR ALL CATS

Place your two pieces of **backing** on your table (right sides together).

Pin and stitch a 12.5mm ($\frac{1}{2}$ ") seam along one edge, leaving an 8-10cm (3 - 4 inch) gap in the middle. This gap is where the coaster will be turned through.

Press the $\frac{1}{2}$ " seam allowance open.

USING YOUR EMBROIDERY MACHINE:

For tips on how to correctly hoop your stabiliser, go to <https://swpea.com/blogs/machine-embroidery-blogs/tips-for-stabiliser-in-the-hoop>

HALLOWEEN CAT 1

Hoop up **cutaway stabiliser** in the hoop. Load design onto your machine. Use applique scissors for trimming the batting and fabric.

STEP 1 Stitch the placement line for the batting.

STEP 2 Place **Batting 1** and optional cutaway/bag stiffener (underneath batting) on top of the hoop. Stitch down.

Remove the hoop from your machine and trim the batting and/or cutaway/bag stiffener about 1-2mm from the stitching.

STEP 3 Place **Fabric A** right side up on top of the hoop covering the batting. Stitch down. Do not trim.

STEP 4 Stitch the placement line for the mouth.

STEP 5 Place **Fabric B** on top of the hoop right side up covering the placement line and stitch down.

Remove the hoop from your machine and trim the fabric about 1-2mm from the stitching.
