Sweet Pea Machine Embroidery Designs Design Files Disclaimer-

Please note to customers who use embroidery software to open our files. In doing so, you may run the risk of the design not stitching as intended by our digitiser's instructions.

We highly recommend that any design file purchased from us be downloaded as per our "how to download our designs" instructions on our website, placed directly onto a USB/memory card, and then placed directly onto the embroidery machine.

We will not be obligated to compensate customers who have put our files through their software and the resulting stitch-out was not as intended.
